DETAILED ACTION

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-8, drawn to a method for providing seasonings, classified in class 426, subclass 120.
- II. Claims 9 and 10, drawn to a storage medium, classified in class 206.
- III. Claims 11-13, drawn to a container, classified in class 220.

The inventions are distinct, each from the other because of the following reasons:

The storage medium of Group II can be used in methods other than that recited in Group I. For example, the storage medium can just be used to store recipes.

Similarly, the container of Group III can be used in methods other than that recited in Group I. For example, the container can be used to store any product, edible or inedible.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art requiring separate searches as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
